# BIO

A little bit about me!

I've been performing since I was about 6 years old but I've always also had a passion for Photography & Videography. In March 2024 I launched my own Headshot/Portrait company called E98 Studios for Actors and Performers as another way to be creative whilst auditioning. I've always been into fitness/sport and absolutely love it! Do I love it everyday of the year? Absolutely not but most days I do! I lived in London for 8 years where I trained at both CPA Studios and Bird College and had lots of amazing opportunities. I loved my time over there but decided to move home and embrace the countryside and lack of takeaways.. I'm also a total nerd for Film Making and the process of bringing stories to life which is one of the many reasons why I'll never not want to be part of this Industry!

# SKILLS
